Alumax offers the most highly customizable Heavy Glass Enclosures available in the industry. Create a single-door installation or larger configurations with side panels, buttress panels, and return panels. The minimal use of metal framing lends a contemporary, clean look. Build your perfect enclosure with our full line of heavy glass hardware, plus a variety of towel bar and handle options to complete the package. Alumax Heavy Glass Enclosures accommodate 3/8" or 1/2" glass and are available in our most popular finishes.

Enclosures for standalone showers must meet a variety of design and performance challenges, from numerous size requirements to the high level of waterproofing made necessary by modern, high-pressure plumbing. Alumax meets this challenge with a versatile offering of pivot and hinge doors available in framed and frameless designs. All are adjustable for a precise fit and come in the full selection of Alumax finish and glass options.
