

793 Buttress Supplement

Instructions

Radius the 180° post as desired using a file or band saw. Place the 180° post inside the curb against the buttress wall and secure with one #8 x 1 1/2" Truss Head Screw. Snap the 90° snap post into the 180° post securely. Push the buttress curb into the 90° snap post.

NOTE: It is recommended to glaze the return panel into the buttress curb with one strip of the horizontal glazing vinyl (*provided*) on the outside of the glass and a bead of caulk on the inside.
