OUR PRODUCT

Alumax is the brand most chosen by the professional installer. Ease of installation, safety, leak prevention and overall durability are just some of the key features engineered into each of our products.

Our clients appreciate the fact that most of our products are available in both standard and custom configurations, and that our product features include a complete selection of color options and glass patterns.

OUR SERVICE

We stand behind our products with a national network of factory owned service centers and partner distributors that stock, fabricate, and deliver on a regional basis.

Professional customer service representatives support the system by looking after common needs as well as detailed solutions. Our people and our systems are totally dedicated to serving our clients.

Alu max
PIPELINE

Like its namesake wave, the fluid grace of Pipeline extends beyond merely the visual. In addition to its gleaming metal and glass profile, Pipeline leads the industry in functional design.

The roller system, precision manufacturing and perfectly balanced heavy glass means effortlessly smooth closing with simply the touch of a finger. Manufactured of finest quality stainless steel, Pipeline is almost infinitely versatile and can be styled to fit most designs.

Exposed rollers on a solid tube and premium stainless steel material make Pipeline a breathtaking style choice for the most upscale bath designs.

Available in multiple configurations, Pipeline brings ultimate luxury to any bath.

Lani L-RTS
Round-Top Tub Shield

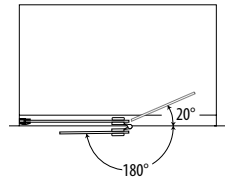

ALUMAX *Lani Collection*

Lani Collection units are designed with careful attention to door position and water movement. Through deflection and precise panel location, a sense of openness is preserved while spray is kept properly within the unit. It's easy to update your current bath with a Lani tub or shower shield—choose Lani for a bit of extra space in the smaller bath or a truly spacious feel in the grandest of master baths.

How Does it Work?

Lani hinged panels use a 20 degree angle interior resting position to deflect any shower spray back into the enclosure. For easy entry and egress, all hinged panels open out a full 180 degrees.

Alumax ProLine FRAMELESS SLIDERS

Now available in Matte Black! Our ProLine sliders feature minimal hardware and frameless heavy glass for a truly open and contemporary appearance. The inline sliding door maximizes floor space, eliminating the need for out-swinging doors. Custom 90 degree return kits are available for multiple configurations. Choose from a variety of pull knobs and handles to complete the package.

Benefits & Features

- One sliding door and one fixed panel
- Minimal hardware for an open, clean appearance
- Easy rolling system to enable the door to slide smoothly
- Polished or brushed stainless finish
- Standard and custom glass options
- Choice of pull knob or handle
- 90 degree return kits available

PL60
Polished Stainless Steel Finish, Clear 3/8" Glass

PL50

Alumax ProLine CLASSIC HEAVY GLASS

The most highly customized Heavy Glass Enclosures available in the Industry—create a single-door installation or larger configurations with side panels, buttress panels, and return panels. The minimal use of metal framing lends a contemporary, clean look. Choose from hardware in three finishes and a variety of towel bar and handle options to complete the package. Alumax Heavy Glass enclosures can accommodate 3/8" or 1/2" glass.

Benefits & Features

- Made of the finest quality brass and stainless steel
- Beveled or square hinge profile
- Standard or adjustable over-close
- High-grip gaskets for positive attachment
- Accommodates both 1/2" and 3/8" glass
- Self-centering

PL91
Brushed Nickel Finish, Clear 3/8" Glass (optional support bar)

Alumax Classic Series STIKSTALL™ ENCLOSURES

Our versatile StikStall™ enclosures provide the designer with options including framed and frameless doors. Frameless doors are available in 3/16" or 1/4" glass. Choose from a variety of finishes as well as numerous glass patterns and textures. The flexible StikStall™ design adapts to virtually any combination of sizes and angles including steam applications and space-saving buttress conditions.

Benefits & Features

- Highly customizable to accommodate buttress walls, sloped ceilings, out-of-square conditions as well as other unique applications.
- Framed door options include pivot or continuous hinge
- Frameless doors include 3/16" or 1/4" glass
- Steam adaptable
- ADA compliant options

Silver Finish, Clear 1/4" Glass

Alumax Classic Series SLIDING ENCLOSURES

The clean lines of sliding glass panels add an element of class to today's bath environment. Packed with the most safety, cleaning and leak prevention features available, these bypass sliding enclosures maximize floor space while providing ample access to the tub or shower—no need for out-swinging doors that may be obstructed by a vanity or toilet. Available in standard sizes for tub or shower height, these units can also be custom sized to fit unique opening dimensions. Optional fixed panels or buttress panels are available upon request.

Benefits & Features

The sliding glass panels are suspended on adjustable ball-bearing rollers for a smooth glide. Our Sliding Enclosures feature the proprietary safety T-lock, easy-clean open track, safety tempered glass panels and optional in-line panels.

Alumax Classic Series PIVOT & HINGE DOORS

Enclosures for stand-alone showers must meet a variety of design and performance challenges, from numerous size requirements to the high level of water proofing required by modern, high-pressure plumbing. Alumax meets this challenge with a versatile offering of continuous hinge and pivot doors available in framed and frameless designs. All are adjustable for a precise fit and come in the full selection of Alumax finishes and glass options.

Benefits & Features

- Available in standard and custom configurations
- Easy adjustments for out-of-plumb conditions
- Leak prevention features

CAUTION: Safety tempered glass is resistant to breakage, but it can still break. If pressure is applied to open or close the door, attempting to cut or alter the glass in any way, or if the glass is not properly handled or maintained, the glass is subject to break. Examples to consider would include falling against the glass if you slip in the tub or shower, using the towel bar to pull yourself up out of the tub or shower, lifting up on the glass if the door hardware has been dislodged, pushing excessively on the door if it seems to be stuck in some manner, or using abrasive cleaners such as scoring pads that can damage the surface of the glass. Please refer to our warning statements and warranty at www.alumaxshowerdoor.com or call 1.800.643.1514 for additional information.
